Professional Summary

Front-End focused Full-Stack Web Developer with strong experience in building responsive, high-performance web applications using React.js. Skilled in developing scalable user interfaces, integrating RESTful APIs, and implementing secure authentication systems. Experienced with back-end development using Express.js and Spring Boot (Java).

Technical Skills

Front-End: React.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Sass

Back-End: Node.js, Express.js, Spring Boot (Java)

Programming Languages: Java, JavaScript, TypeScript, Python, C, C++

Other Skills: Data Structures & Algorithms, REST APIs, Git, OOP, MVC Architecture, JWT Authentication, Problem Solving

Education

Higher Institute of Computer Science and Information Systems, 6th of October
Bachelor of Computer Science **GPA: 3.2**
Sep 2022 – Jun 2026

Projects

Foody – Restaurant & Chef Listing Platform *In Progress*
Front-End Development with React.js

- Developed a role-based web platform for food businesses and general users.
- Built dynamic and responsive UI components using React.js.
- Implemented business and user roles for managing restaurants, chefs, and recipes.
- Created an admin dashboard to review and approve submitted content.

Excursions – Travel Experience Website

Full-Stack (React.js & Express.js)

- Developed a full-stack web application for managing hotel excursions and guest bookings.
- Implemented forms to capture guest details, pricing, and hotel information.
- Designed RESTful APIs to manage bookings and client data.
- Integrated WhatsApp message generation for booking confirmations.

Chat Application – MERN Stack Graduation Project

Full-Stack (React.js & Express.js)

- Built a real-time messaging platform with private and public group chats.
- Implemented user authentication, friend requests, and notifications.
- Used Socket.io to enable real-time communication.

Ashri – Full-Stack Clothing E-commerce Platform

Full-Stack (React.js & Express.js)

- Developed a full-stack web application for clothing orders.
- Implemented a user-facing order system with cart, checkout, and order tracking.
- Built an admin dashboard to monitor orders, view order locations, and manage product details.
- Integrated RESTful APIs for order management and real-time updates.

Work Experience

Freelance Web Developer

Nov 2024 – Present

- Developed and maintained back-end services using Spring Boot (Java) to support admin dashboards.
- Integrated secure authentication and authorization using JWT and role-based access control.
- Delivered two client-facing React.js projects with optimized performance, SEO, and responsive design.

Hybrid Training – DEPI

Jun 2024 – Oct 2024

- Gained hands-on experience in full-stack web development.
- Worked with HTML, CSS, Tailwind CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB.
- Built a real-time chat application with secure authentication and user engagement features.

Certifications

- React Web Developer – DEPI (2024)
- Ultimate React Course 2025 – Udemy (2024)
- TypeScript: The Complete Developer Guide – Udemy (2024)
- Hybrid Training – Unitech (2024)

Extracurricular Activities

- Attended ICPCLocal Training at FCAI (2022)
- Participated in ECPC (Egyptian Collegiate Programming Contest) – 2023
